**FOR IMMEDIATE RELEASE**

**Vette Corp Joins The Green Grid, a Consortium Dedicated to Data Center Energy Efficiency and Business Computing Ecosystems**

**Manchester, New Hampshire (USA) February 6, 2008** – Vette Corp (Vette), a leading global provider of thermal management solutions, has joined forces with other prominent corporations as a Contributor Member of The Green Grid. Founded in 2007, The Green Grid has more than 150 Members dedicated to the advancement of energy efficiency within data centers and business computing ecosystems.

According to Vette Corp datacom facilities division General Manager Joe Capes, “The development of technology and products which provide more effective and efficient means of thermal management is a core Vette business focus. Successfully increasing data center energy efficiency will take the combined expertise of The Green Grid Member companies and we are proud to be part of the solution.”

Vette Corp and its fellow consortium Members will work interactively, sharing and improving upon current best practices around energy efficiency. Moreover, The Green Grid is focused on developing and promoting the adoption of meaningful user-centric models, metrics, standards, processes and new technologies that will improve overall data center energy efficiencies. The Green Grid's scope also includes collaboration with end-users and government organizations worldwide in order to ensure that each goal is aligned with developers and users of data center technology.

“Vette Corp’s expertise will be a valuable resource for The Green Grid’s Technical Committee, as thermal management is an important factor to consider when analyzing overall data center efficiency,” said Winston Bumpus, a director of The Green Grid. “We are pleased to have Vette Corp participate as a Contributor Member.”

## **About Vette Corp**

Founded in 2004, Vette Corp is a global thermal management solutions provider specializing in solving thermal challenges for leading OEM's, operators and owners of computer, communications and industrial electronic equipment. Vette maintains a growing IP portfolio, with design and applications engineering in Asia and North America. The company operates high-volume manufacturing facilities in both continents.

Vette Corp's extensive solutions portfolio, design and manufacturing capabilities are complemented by world-class supply chain and customer service to offer clients the lowest cost, highest quality, end-to-end solutions available for today's complex thermal problems. Vette is privately held and is headquartered in Manchester, New Hampshire, USA. For more information about Vette Corp, visit [www.vettecorp.com](http://www.vettecorp.com).
